POWER LINE.

Seven ways to tap the power of Tower.

The industry's biggest family of 32-bit UNIX™ supermicros is now bigger than ever. To give you more choice and more performance than ever.

For small businesses, there's the amazingly-compact, but powerful Tower 32/200. For very large applications, there's the Tower 32/850, with the power to support over 500 users. And five more Towers in between.

Extended family. Extended performance.

The Tower family is a family in the truest sense of the word. They're totally upward-compatible. To protect your software investment as you grow from Tower to Tower. And with more than 700 third-party programs now available in the NCR Software Catalog, there's plenty of software to help you grow.

If your applications are especially CPU-intensive, some of the newest members are designed specifically to help. With fast 25MHz CPUs and high-performance mass storage controllers that double I/O throughput.

An open door for future growth.

From the beginning, we've built the Tower family around industry standards. UNIX System V.™ Multibus.™ SCSI. All major communications protocols. Including DOS to UNIX links. Token-ring networks. SNA X.25. 3270 Bisync. Ethernet/TCP/IP. And more. To keep your options open for whatever the future may bring.

Our commitment to open systems has made us a leader in the 32-bit UNIX market. It's a commitment backed by the service and staying power of a $5.6 billion corporation.

Phone (800) CALL NCR today. We'll show you how plugging into our power line can help your business grow to even greater heights.

THE NCR TOWER FAMILY.
A Smart Foundation to Build On.
